

Walgreens Is the Exclusive Pharmacy for myBlue

The myBlue plan is a low-cost HMO that offers valuable and affordable insurance for our members. It is slightly different from most Florida Blue plans.

myBlue works exclusively with Walgreens to fulfill retail pharmacy benefits for members.

Did You Know?

1. The [ValueScript medication guide \(formulary\)](#) focuses on generics and preferred brand medications to keep our members' out-of-pocket costs low.
2. The retail pharmacy option is an exclusive arrangement with Walgreens.

How You Can Help

The member ID card for myBlue members is distinctive from other Florida Blue cards. When a member presents this card, please have your office staff make a note to send prescriptions to Walgreens only. This may prevent issues for your patient and staff.

About Specialty Medications

Note, while the retail pharmacy network is exclusive with Walgreens, this does not impact the specialty pharmacy network.

Patients with the myBlue plan can use CVS/Caremark or Accredo for their specialty medication needs.
