New Provider Link Feature: Member Visits/Annual Wellness Visits

The newest release of Provider Link[™] adds a new **Member Visits/Annual Wellness Visit (AWV)** page to the Members module of the application. Provider Link is the platform for managing the unique needs of your Medicare Advantage patients.

Enhancement: Member Visits/AWV Page

A **Member Visits/AWV** page, illustrated below, is now available to help providers better track their patients' office visits – including AWVs.

Member Visits/AWV Page

This page is like the **My Roster** page. It displays all your Florida Blue Medicare patients and has some of the same charts. However, it also shows your patients' last visit with you and their last Medicare Physical Exam, (including AWV) received from any practice.

This will help ensure your patients receive adequate care and attention with their CMSrecommended preventative services. All visit information displayed on this page is based on 12 months of Florida Blue Medicare paid claims. AWV information displayed includes CPT codes: G0402 (IPPE), G0438 and G0439.

You may also verify which AWV services your patients are eligible for by accessing the Centers for Medicare & Medicaid Services (CMS) Medicare Administrative Contractor's (MAC) list. Here, select the state for your place of business, follow the prompts and log into SPOT (Secure Provider Online Tool).
